The Delton Group operates from offices in the UK and from branch offices and agent managed offices Worldwide. The Delton Group companies hold ISO 9000 certification and are members of the UK Chamber of Commerce.

### Introduction to Delton

Over the years acquisitions, mergers and the incorporation of new companies has lead to the formation of The Delton Group of Companies.

This has succeeded in bringing together many years of management experience in the provision of Worldwide Oil, Gas, Petrochemical and related project support services.

The Delton Group management team of professionals, with extensive background, experience and expertise within the Oil and Gas Industry, is ready to meet the ever-changing requirements of its clients worldwide.

This is done using the latest technology and a team of the most experienced staff in the industry.

### Philosophy of Delton

Our philosophy is to provide our clients with an efficient, cost effective service with an emphasis on the highest quality and understanding.

A feature of The Delton Group is the ability to provide clients with the resources and assistance to undertake projects from the conceptual and planning stages through to project completion. With its considerable resources and experience Delton is well qualified to provide clients with the appropriate services during the planning and preparation stages through to the final implementation stages of their projects.

Delton is pleased to work with its clients in developing and implementing policies and strategies for new or established projects, where the management's prime concern is the development of the project and the need

to work within specified project timescales and budgets.

### Worldwide Operations
